-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on June 22, 2005 has been entered. No claims have been amended. No claims have been cancelled. No claims have been added. Claims 1-10 are still pending in this application, with 1, 6, 7, 8, 9, and 10 being independent.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Young et al (US 6,324,405).
4. In regards to claims 1, 6, 7, and 9, Young discloses a mobile communication system (Fig. 1) comprising a mobile terminal (mobile terminals/subscriber terminal apparatus 2) and a subscriber information management apparatus (SIM 35 and SIM memory 35b) that manages subscriber information, wherein said mobile terminal comprises: detecting means (smart card reader 33) for detecting a loading of a recording medium; transmitting means for transmitting, when said detecting means detects at least two recording media, first subscriber identity information corresponding to a first recording medium and second subscriber identity information corresponding to a newly detected recording medium, to said subscriber information management

apparatus (col. 3 lines 54-65, col. 7 lines 32-45, col. 9 lines 9-27, col. 12 lines 12-25, col. 14 lines 7-13, col. 14 lines 27-35, and col. 16 lines 13-25), and wherein said subscriber information management apparatus comprises: receiving means for receiving said first subscriber identity information and said second subscriber identity information from said mobile terminal (col. 10-11 lines 66-15 and col. 12 lines 12-25); and registering means for registering location area information of said first subscriber identity information as location area information associated with said second subscriber identity information (col. 3 lines 54-65, col. 4 lines 10-18, col. 9 lines 9-18, and col. 16 lines 13-25).

5. In regards to claim 2, Young discloses the mobile communication system, wherein said recording media is a subscriber identity module card (SIM 35) (col. 7 lines 32-45).

6. In regards to claim 3, Young discloses the mobile communication system, wherein said first subscriber identity information is subscriber identity information stored in said first recording medium or temporary subscriber identity information corresponding to the subscriber identity information stored in said first recording medium, and said second subscriber identity information is subscriber identity information stored in said newly detected recording medium (col. 10 lines 50-60, col. 14 lines 7-13, col. 14 lines 27-35).

7. In regards to claim 4, Young discloses the mobile communication system, wherein said first subscriber identity information and said second subscriber identity information are associated with respective telephone numbers (col. 9 lines 19-27).

8. In regards to claim 5, Young discloses the mobile communication system, wherein said first subscriber identity information and said second subscriber identity information are associated with mail addresses (col. 10 lines 50-60).

9. In regards to claims 8 and 10, Young discloses a mobile network system (Fig. 1) comprising: managing means for managing communication state of a mobile terminal having at least two telephone numbers; judging means for judging, when an incoming call to said mobile terminal occurs, whether said mobile terminal is in communication by using any one of said telephone numbers, based on said communication state; and processing means for performing a process for said incoming call in accordance with said judgment (col. 12 lines 12-25).

Response to Arguments

10. Applicant's arguments filed 06/22/05 have been fully considered but they are not persuasive. Applicants argue that Young does not disclose that the smart card reader 33 receives a second smart card (SIM) 35, storing second user information. Young, however, does disclose that the smart card reader 33 receives a second smart card (SIM) 35, storing second user information (See Fig. 21, col. 9 lines 9-18, col. 12 lines 12-25, and col. 16 lines 13-25). Applicant states that Young, does not disclose handsets 2a, 2b that, when the handsets 2a, 2b detect a second smart card 35, transmit first user information corresponding to the first smart card 35 and second user information corresponding to a newly detected the second smart card 35, to the store 54, 48, nor does it disclose that the store 54, 48 receive the first user information and

second user information from the handsets 2a, 2b. Examiner respectfully disagrees with this argument. Young does disclose handsets 2a, 2b that, when the handsets 2a, 2b detect a second smart card 35, transmit first user information corresponding to the first smart card 35 and second user information corresponding to a newly detected the second smart card 35, to the store 54, 48, (See col. 2 lines 3-12, col. 12 lines 12-25, and col. 16 lines 13-25) and it discloses that the store 54, 48 receive the first user information and second user information from the handsets 2a, 2b (See col. 9 lines 9-18 and col. 10 lines 24-32).

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
12. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
